

**ADDENDUM NO. 3
TO THE PLANS, SPECIFICATIONS AND CONTRACT DOCUMENTS
Entitled**

**DEWITT COUNTY
Clinton Lake Marina Breakwater**

AD3-1 NOTICE

1.01 This Addendum No. 3 dated June 8, 2022, to the plans, specifications and contract documents for the above-captioned project supersedes all contrary and conflicting information in the documents which are hereby supplemented or revised as follows.

AD3-2 CONTRACTOR/SUPPLIER QUESTIONS AND CLARIFICATIONS

2.01 Quality Assurance 3 - we do have a concrete compressive test machine that has been Missouri certified but we don't have an operational quality assurance program.

This is acceptable.

2.02 Will the attenuator be used for boaters to walk and use this as a deck? Our attenuator will have an open frame system exposed on the top with no decking, I am assuming this would be fine if you are not allowing persons to use this as a deck for boaters.

We do not intend to use this attenuator as a dock, so decking is not needed.

2.03 Have you checked with your manufactures to see if they would be able to install the attenuators by the end of November? Most companies are now bidding into spring of 2023.

Please provide your best lead time, but special consideration will be given to bids with delivery dates in 2022.

AD3-3 ADDENDUM NO. 3

3.01 This Addendum No. 3 consists of Articles AD3-1 through AD3-3, with all attachments.
